

4th February 2023

National University of Singapore
21 Lower Kent Ridge Road
Singapore 119077

Dear Dean of Admissions,

I am pleased to recommend Mah Jian Xiang for admission to the National University of Singapore. I have known Jian Xiang for six years and was delighted to serve as his mathematics teacher at Han Chiang High School. Jian Xiang is an outstanding individual who excels in both his academic and personal pursuits.

I have taught Jian Xiang for three years in the senior secondary class, and he has always been interested in studies and likes to try different formulae and methods to solve the equations.

Jian Xiang was a person with great passion in solving different types of problem-solving questions. He is always active, and his grasping power is as good as his skills in innovating new ideas. He is a lively individual who makes his presence felt in groups. Besides that, he is also a hardworking, enthusiastic, diligent student with social values.

Jian Xiang's personal strengths are as impressive as his intellectual accomplishments. He's an active, outgoing presence in class with a great sense of humour. Jian Xiang's the perfect person to get a group project rolling, but he also knows how to sit back and let others take the lead. His cheerful nature and openness to feedback mean he's constantly learning and growing as a learner, an impressive strength that will continue to serve him well in university and beyond. His ability to work in teams and independently are appreciable.

Experiential learning and higher studies at your university will help him realize his goals and gain in-depth practical knowledge of the subject he truly deserves.

Jian Xiang has my highest recommendation for admission to your university. He has demonstrated excellence in all that he puts his mind to. Jian Xiang's endless curiosity, combined with his willingness to take risks, leads me to believe there will be no limit to his growth and achievements in university.

Sincerely,

Mr. Gun Yit Hean
Deputy Head of Co-curricular Department cum Mathematics Teacher
Han Chiang High School
